

MARTIAN RACE 2026

Arrival by car Instructions

This document deals with those arriving at McLaren Technology Centre by car. The general instructions for the runners are contained in their own document.

Car Parking at McLaren Technology Centre

Parking is strictly limited at the McLaren Technology Centre so must be booked in advance. If you still need a place we have a few left. Go on to your account via the link in the original email and scroll down to Merchandise to add a car parking space and place your order there. Car parking for entrants will open at 7.30 on race day.

With a view to speeding access up, this year we are issuing a Parking Pass identifying those that have pre-paid enabling access to the McLaren car park. These can be collected from Foundations Independent Estate Agents in Woking (see Runners Instructions) along with Race Bibs before the event. Alternatively, on race day, if you bring proof of purchase via a printout or on your mobile to show the Marshals upon arrival that you have paid for parking they will issue you a Pass. The Pass should be placed on the dashboard/in windscreen so clearly visible.

Address :- McLaren Technology Centre (MTC), Woking, GU21 4YH.
Approach the security gate and you will be directed to the car park. Parking Marshals will assist you and, once parked, will direct you to the Race Village.

The race village is 5 minutes' walk from the car park on a track with no motorised vehicles. Our race village is contained with no access to vehicles after 7.45 (apart from our medic who arrives at 8.30) - if you have children, please look out for them. Your children remain your responsibility on the day.

There is no cycle or pedestrian route via MTC.

Cars can drop off at the **entrance** to MTC (as directed by marshals) and a pedestrian route to the Race Village is shown on the map below NOT via MTC. Pedestrian routes to the start shown under Arrival on Foot or by Cycle Section (10 mins walk).

Please see the maps below
